Held WATER DISCUSSION

20

Manager Kline gave each Councilmember a copy of the Water Agreement Among Troy, Miami County, and West Milton dated 2003 for their review. He also gave each Councilmember a copy of the Water Fact Finding Committee Rules – Revised 10-11-99 for their review. It was discussed how it came about that West Milton needed to look for a new water source. EPA did not want West Milton in the river because of the nitrate levels. EPA, Council, and residents of West Milton wanted the Municipality out of the river. A Fact Finding Committee was established. The committee talked to Dayton, Union, Tipp City, Vandalia, and Troy about supplying West Milton with water. Union does not treat their water. An engineering firm was paid to do a study. Negotiations took place with Tipp City, Vandalia, and Troy. Troy had water and West Milton had to go get it. The Councilmembers at that time decided that Troy was the best option. Law Director Sell stated that for years Council wanted to keep the Water Plant; but could not do so any longer. Manager Kline stated he would like to propose to John Applegate of Union that West Milton and Union apply for an innovation grant to see if it would be feasible for Union and West Milton to do a joint water project. It was discussed whether to try and go back to Troy and renegotiate the water rates. It was also discussed possibly talking to Englewood, Greenville, and Covington regarding a water project.

PUBLIC COMMENTS

Don Martin of West Milton stated West Milton does not have a backup water system and he believes there should be a backup system. Mr. Martin stated Mr. Applegate from Union offered West Milton a backup water system; but that Mr. Applegate wanted to annex to Garland Road on the east side. Tim Swartztrauber stated, "It would be worse for us to hook into that water than not having any water."
